## Notes to Condensed Consolidated Interim Financial Statements as at December 31, 2023 and for the three and nine months ended December 31, 2023 and 2022

*(Unaudited) (Tabular amounts are in thousands of U.S. dollars, except numbers for share and per share figures or otherwise stated)*

### 1. CORPORATE INFORMATION

Silvercorp Metals Inc., along with its subsidiary companies (collectively the “Company”), is engaged in the acquisition, exploration, development, and mining of mineral properties. The Company’s producing mines are located in China, and current exploration and development projects are located in China.

The Company is a publicly listed company incorporated in the Province of British Columbia, Canada, with limited liability under the legislation of the Province of British Columbia. The Company’s shares are traded on the Toronto Stock Exchange and NYSE American.

The head office, registered address and records office of the Company are located at 1066 West Hastings Street, Suite 1750, Vancouver, British Columbia, Canada, V6E 3X1.

### 2. MATERIAL ACCOUNTING POLICY INFORMATION

#### *(a) Statement of Compliance*

These unaudited condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard 34 – *Interim Financial Reporting (“IAS 34”)* of the International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and have been condensed with certain disclosures from the Company’s audited consolidated financial statements for the year ended March 31, 2023. Accordingly, these unaudited condensed consolidated interim financial statements should be read in conjunction with the Company’s audited consolidated financial statements for the year ended March 31, 2023. These unaudited condensed consolidated interim financial statements follow the same accounting policies set out in Note 2 to the audited consolidated financial statements for the year ended March 31, 2023 with the exception of the mandatory adoption of certain amendments noted below.

#### **Amendment to IAS 12 - Deferred Tax related to Assets and Liabilities arising from a Single Transaction**

The amendments to IAS 12 clarify that the initial recognition exemption does not apply to transactions in which equal amounts of deductible and taxable temporary differences arise on initial recognition.

The adoption of this amendment did not have a material impact on the Company’s condensed consolidated interim financial statements.

#### **Amendments to IAS 1 and IFRS Practice Statement 2 – Disclosure of Accounting Policies**

The amendments require that an entity discloses its material accounting policies, instead of its significant accounting policies. Further amendments explain how an entity can identify a material accounting policy. Examples of when an accounting policy is likely to be material are added. To support the amendment, the IASB has also developed guidance and examples to explain and demonstrate the application of the ‘four-step materiality process’ described in IFRS Practice Statement 2. This amendment did not have a material impact on the Company’s condensed consolidated interim financial statements.

## Notes to Condensed Consolidated Interim Financial Statements as at December 31, 2023 and for the three and nine months ended December 31, 2023 and 2022

*(Unaudited) (Tabular amounts are in thousands of U.S. dollars, except numbers for share and per share figures or otherwise stated)*

### **Amendments to IAS 8 – Definition of Accounting Estimates**

The amendments replace the definition of a change in accounting estimates with a definition of accounting estimates. Under the new definition, accounting estimates are “monetary amounts in financial statements that are subject to measurement uncertainty.”

The definition of a change in accounting estimates was deleted. However, IASB retained the concept of changes in accounting estimates in IFRS with the following clarification:

- A change in accounting estimate that results from new information or new developments is not the correction of an error.
- The effects of a change in an input or a measurement technique used to develop an accounting estimate are changes in accounting estimates if they do not result from the correction of prior period errors.

The adoption of this amendment did not have a material impact on the Company’s condensed interim consolidated financial statements.

These unaudited condensed consolidated interim financial statements were authorized for issue in accordance with a resolution of the Board of Directors of the Company dated February 6, 2024.

### *(b) New Accounting Standards*

Certain new accounting standards and interpretations have been published that are not mandatory for the current period and have not been early adopted. Management is still evaluating and does not expect any such pronouncements to have a material impact on the Company’s consolidated financial statements upon adoption.

### *(c) Basis of Consolidation*

These condensed consolidated interim financial statements include the accounts of the Company and its wholly or partially owned subsidiaries.

Subsidiaries are consolidated from the date on which the Company obtains control up to the date of the disposition of control. Control is achieved when the Company has power over the subsidiary, is exposed or has rights to variable returns from its involvement with the subsidiary and has the ability to use its power to affect its returns.

For non-wholly owned subsidiaries over which the Company has control, the net assets attributable to outside equity shareholders are presented as “non-controlling interests” in the equity section of the condensed consolidated interim statements of financial position. Net income for the period that is attributable to the non-controlling interests is calculated based on the ownership of the non-controlling interest shareholders in the subsidiary. Adjustments to recognize the non-controlling interests’ share of changes to the subsidiary’s equity are made even if this results in the non-controlling interests having a deficit balance. Changes in the Company’s ownership interest in a subsidiary that do not result in a loss of control are recorded as equity transactions. The carrying amount of non-controlling interests is adjusted to reflect the change in the non-controlling interests’ relative interests in the subsidiary and the difference between the adjustment to the carrying amount of non-controlling interest and the Company’s share of

- Silvercorp having a relevant interest in at least 50.1% of the OreCorp Shares (not yet met);
- no regulatory action which could reasonably be expected to restrain, impede or prohibit the Offer and completion of the Transaction;
- no OreCorp material adverse change or prescribed occurrence (both terms defined in a customary manner); and
- normal course listing approval for the new Silvercorp Shares to be issued (conditional approval from Toronto Stock Exchange and authorization of the Company's supplemental listing application from NYSE American received).

The OreCorp Board is unanimously recommending that OreCorp shareholders accept the Offer subject to their Independent Expert's Report concluding, and continuing to conclude, that the Offer is reasonable to OreCorp shareholders and there being no Superior Proposal. Subject to those same qualifications, the OreCorp Board, who collectively hold 3.94% of the OreCorp Shares, intends to accept the offer in respect of all OreCorp Shares they own or control.

The BID includes market standard deal protection measures equivalent to those previously agreed under the Scheme, including "no talk" and "no due diligence" provisions (subject to a fiduciary out exception) and "no shop". It also includes notification and matching rights for Silvercorp in the event of a competing proposal. Pursuant to these deal protection measures, OreCorp has agreed, inter alia that it will not solicit, encourage or initiate any competing proposal and further, that it will not participate in any discussions or negotiations with a third party in relation to any competing proposal (unless certain conditions are satisfied, including where a failure to do so would constitute a breach of the OreCorp Board's fiduciary duties or statutory obligations).

As with the Scheme, under certain circumstances a break fee of approximately A\$2.8 million will be payable by OreCorp to Silvercorp if the BID is terminated.

The offer is not subject to the approval of the Silvercorp's shareholders and is not subject to any financing or due diligence conditions.

In conjunction with the execution of the BID, Silvercorp and OreCorp have mutually agreed to terminate the Agreement and the Amending Deed.

The off-market takeover offer document was dispatched to OreCorp shareholders on January 15, 2024 and since then, the offer is open for acceptance by OreCorp shareholders until February 23, 2024 (Sydney time), unless extended.

On February 1, 2024, the Company announced that it received a Merger Clearance Certificate (dated January 30, 2024) from the Tanzanian Fair Competition Commission (the "FCC") providing unconditional merger control approval for the Transaction. This approval represents the sole Tanzanian regulatory requirements needed to complete the Transaction and clears any possibility of the potential breach of the "no regulatory action" condition as stated in the BID.

### 20. FINANCIAL INSTRUMENTS

The Company manages its exposure to financial risks, including liquidity risk, foreign exchange risk, interest rate risk, credit risk and equity price risk in accordance with its risk management framework. The Company's Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework and reviews the Company's policies on an ongoing basis.

#### (a) Fair value

The Company classifies its fair value measurements within a fair value hierarchy, which reflects the significance of the inputs used in making the measurements as defined in IFRS 13, Fair Value Measurement ("IFRS 13").

Level 1 – Unadjusted quoted prices at the measurement date for identical assets or liabilities in active markets.

Level 2 – Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3 – Unobservable inputs which are supported by little or no market activity.

The following tables set forth the Company's financial assets and liabilities that are measured at fair value level on a recurring basis within the fair value hierarchy as at December 31, 2023 and March 31, 2023 that are not otherwise disclosed. As required by IFRS 13, the assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Recurring measurements	Fair value as at December 31, 2023			
	Level 1	Level 2	Level 3	Total
<b>Financial assets</b>				
Cash and cash equivalents	\$ 143,280	\$ -	\$ -	\$ 143,280

(Unaudited) (Tabular amounts are in thousands of U.S. dollars, except numbers for share and per share figures or otherwise stated)

Recurring measurements	Fair value as at March 31, 2023			
	Level 1	Level 2	Level 3	Total
<b>Financial assets</b>				
Cash and cash equivalents	\$ 145,692	\$ -	\$ -	\$ 145,692
Short-term investments - money market instruments	53,829	-	-	53,829
Investments in public companies	12,314	-	-	12,314
Investments in private companies	-	-	3,226	3,226

Financial assets classified within Level 3 are equity investments in private companies owned by the Company. Significant unobservable inputs are used to determine the fair value of the financial assets, which includes recent arm's length transactions of the investee, the investee's financial performance as well as any changes in planned milestones of the investees.

Fair value of the other financial instruments excluded from the table above approximates their carrying amount as at December 31, 2023 and March 31, 2023, due to the short-term nature of these instruments.

There were no transfers into or out of Level 3 during the three and nine months ended December 31, 2023 and 2022.

### (b) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its short-term business requirements. The Company has in place a planning and budgeting process to help determine the funds required to support the Company's normal operating requirements on an ongoing basis and its expansion plans.

In the normal course of business, the Company enters into contracts that give rise to commitments for future minimum payments. The following summarizes the remaining contractual maturities of the Company's financial liabilities and operating commitments on an undiscounted basis.

	December 31, 2023		
	Within a year	2-5 years	Total
Accounts payable and accrued liabilities	\$ 52,539	\$ -	\$ 52,539
Lease obligation	291	121	412
Deposits received	4,354	-	4,354
<b>Total Contractual Obligation</b>	<b>\$ 57,184</b>	<b>\$ 121</b>	<b>\$ 57,305</b>

### (c) Foreign exchange risk

The Company reports its financial statements in US dollars. The functional currency of the parent entity, Canadian subsidiaries and all intermediate holding companies is the Canadian dollar ("CAD") and the functional currency of all Chinese subsidiaries is the Chinese yuan ("RMB"). The functional currency of New Infini and its subsidiaries is the US dollar ("USD"). The Company is exposed to foreign exchange risk when the Company undertakes transactions and holds assets and liabilities in currencies other than its functional currencies.

## Notes to Condensed Consolidated Interim Financial Statements as at December 31, 2023 and for the three and nine months ended December 31, 2023 and 2022

*(Unaudited) (Tabular amounts are in thousands of U.S. dollars, except numbers for share and per share figures or otherwise stated)*

The Company currently does not engage in foreign exchange currency hedging. The sensitivity of the Company's net income due to the exchange rates of the Canadian dollar against the U.S. dollar and the Australian dollar as at December 31, 2023 is summarized as follows:

	Cash and cash equivalents	Short-term investments	Other investments	Accounts payable and accrued liabilities	Net financial assets exposure	Effect of +/- 10% change in currency
US dollar	\$ 68,539	\$ 1,403	\$ 2,654	\$ (330)	\$ 72,266	\$ 7,227
Australian dollar	253	-	32,294	-	32,547	3,255
	<b>\$ 68,792</b>	<b>\$ 1,403</b>	<b>\$ 34,948</b>	<b>\$ (330)</b>	<b>\$ 104,813</b>	<b>\$ 10,482</b>

### *(d) Interest rate risk*

The Company is exposed to interest rate risk on its cash equivalents and short-term investments. As at December 31, 2023, all of its interest-bearing cash equivalents and short-term investments earn interest at market rates that are fixed to maturity or at variable interest rates with terms of less than one year. The Company monitors its exposure to changes in interest rates on cash equivalents and short-term investments. Due to the short-term nature of these financial instruments, fluctuations in interest rates would not have a significant impact on the Company's net income.

### *(e) Credit risk*

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company is exposed to credit risk primarily associated to accounts receivable, due from related parties, cash and cash equivalents, and short-term investments. The carrying amount of assets included on the statements of financial position represents the maximum credit exposure.

The Company undertakes credit evaluations on counterparties as necessary, requests deposits from customers prior to delivery, and has monitoring processes intended to mitigate credit risks. There were no material amounts in trade or other receivables which were past due on December 31, 2023 (at March 31, 2023 - \$nil).

### *(f) Equity price risk*

The Company holds certain marketable securities that will fluctuate in value as a result of trading on financial markets. As the Company's marketable securities holdings are mainly in mining companies, the value will also fluctuate based on commodity prices. Based upon the Company's portfolio as at December 31, 2023, a 10% increase (decrease) in the market price of the securities held, ignoring any foreign currency effects, would have resulted in an increase (decrease) to the net income (loss) and other comprehensive income (loss) of \$4.3 million and \$0.1 million, respectively.
